PROFESSIONAL SUMMARY

Marketing and development professional with 10 years of email and CRM experience, complemented by independent AI-assisted product development and technical consulting. Combines large-scale campaign execution, audience segmentation, and performance reporting with hands-on coding, product-release work, and technical teaching. Recent projects include ChessJitsu, contract work for Playable Video, and subject-matter interviews covering email marketing and quality assurance for an AI initiative.

CORE SKILLS

Campaign planning and execution | Audience segmentation | Performance reporting | Stakeholder communication | Technical teaching | Quality assurance | Deliverability | AI-assisted development

Salesforce Marketing Cloud / ExactTarget | SQL | AMPscript | HTML/CSS | JavaScript | jQuery | Bootstrap | Google Analytics

SELECTED PROFESSIONAL EXPERIENCE

Freelance / Independent | New York City Metropolitan Area

Web Development and Technical Marketing Projects | Nov 2024 - Present

- ChessJitsu: use AI-assisted development to build and iterate on a website and mobile app; contribute to app-release workflows, product pages, and launch assets.
- Playable Video: perform contract technical work investigating video-in-email behavior across platforms; document playback, browser fallbacks, and confirmed media sources in QA evidence sheets.
- AI subject-matter contribution: completed two recorded interviews covering email execution, deliverability, program measurement, and quality assurance; selected for LinkedIn's AI Labor Marketplace marketing consultant project.
- Develop responsive websites using HTML, CSS, JavaScript, jQuery, and Bootstrap, including client work and volunteer services for charities and nonprofits.

Morgan Stanley | Jersey City, NJ

Assistant Vice President / Email Developer | Dec 2021 - Jun 2026

- Developed and managed automated email campaigns, CRM flows, and customer journeys; segmented audiences and implemented personalized content.
- Coordinated campaign assets, data delivery, launch requirements, deployment schedules, and stakeholder updates across marketing teams.
- Wrote SQL queries, hand-coded HTML/CSS email templates, and developed AMPscript for personalized communications; created documentation and team guides for lead generation and QA processes.
- Supported campaign performance reporting and general inquiries; received an Innovation Award in 2026.

SELECTED EXPERIENCE CONTINUED

WebMD | New York, NY

Senior Email Developer | Sep 2018 - Jul 2021

- Created dynamic email campaigns and deployed them to millions of recipients through Salesforce ExactTarget; executed push marketing campaigns.
- Managed end-to-end email QA and compiled campaign reports with insights to inform marketing strategy.
- Led weekly JavaScript learning sessions for colleagues, explaining technical concepts and sharing practical development knowledge.

AHAlife | New York, NY

Email Developer and Marketing Analyst | Oct 2016 - Sep 2018

- Improved email deliverability and open rates; implemented email workflows and reusable HTML/CSS template elements.
- Built landing and editorial pages; collaborated with designers and copywriters and tested campaigns across email clients, devices, and browsers.
- Supported Google AdWords and Bing Ads optimization through competitive research, negative keywords, bidding algorithms, and performance reporting; evaluated SMS as a potential marketing channel.
